THE HAWAIIAN ELECTRIC CO., LTD.  
Honolulu, T. H.

Gentlemen: For nearly two months the one hundred horse-power Westinghouse motor which you furnished this Company has been working at our rock-crushing plant at Pahoa. It is giving entire satisfaction and our only regret is that we did not install it before. We are able now to deliver more crushed rock and sand than ever before, and at lower prices.

It is cheaper, being more efficient, always ready for work, no breakdowns, no lost time and no parts to wear out as in our previous plant where gasoline engines were used.

Sincerely yours,

**Hustace, Peck & Co., Ltd.**

### RECREATIONS

#### BIJOU

The Columbians are presenting one of the best shows of the season at the Bijou theatre this evening, in which appear the entire Wonderful Five of the Miller family, and Lew Pistel and Tom Heath, comedian and singer, respectively.

Baby Marilyn, of whom the press of the mainland States speaks with the utmost praise, marvelling at her mature understanding and dainty grace, is the most dazzling attractive of the aggregation, for the production she gives is more than most child actresses can manage, the world over.

There are some fifteen or sixteen separate numbers, songs, dances and charming situations, in the scenes and sensations presented by this company of popular artists.

#### THE EMPIRE

In sort of a miniature minstrel show which combines all the funnysims of a much larger presentation, Reginia Reed and her two picanninies are delighting Empire theatre audiences, and their turn this afternoon, at the matinee and tonight will be entirely new. Winnie Baldwin also has new songs and dances and the moving pictures are new throughout, as is the case with every one of the theatres this week.

#### THE SAVOY

There has been no better team at the Savoy, since the Doric Trio left than that now composed of Jourdan and Gervaise, attractive and most accomplished operatic singers whose selections are all classical and all given with the finish and perfection which is expected of a thorough operatic production.

Dolliver and Rogers are on, too, maintaining their popularity without diminishment. They and the Jourdan and Gervaise couple, have entirely new attractions to offer this week.

### MOTHER OF THE PRINCESS DEAD

Mrs. Muolo Keawehenu, the mother of Princess Kalaniana'ole, died last Saturday afternoon at 3 o'clock at Punalani, Waikiki, at the age of sixty-five. She was born in Makawao, Maui, where she received her education in the Hawaiian schools. She was well known throughout the islands.

The funeral arrangements will be deferred until the return of Prince Kalaniana'ole, who is expected in the Matsuo liner Lurline, next Thursday morning.

### HAWAII PHONE MEN CONFER

Seek Means to Defeat Non-Subscribers Use of Telephones.

(Special Bulletin Correspondence.)  
HILO, March 1.—The heads of all the four telephone companies on this island, Richards of Hilo, Pritchard of Hamakua, Tuiloch of Kohala and August of the Kona-Kau line, met this week in Hilo, and the meeting caused the revival of the rumor which was faintly heard a short time ago, namely that certain parties were going to ask the legislature for a franchise for a new telephone company, which would install an automatic switchboard and include the entire island in its operations.

It was generally reported that this matter furnished the cause for the conference of the phone powers, but this is definitely denied by the gentlemen concerned.

Pritchard stated that when he recently visited Honolulu, just before the opening of the session of the legislature, he had heard that certain parties, the names of whom he did not know, intended to seek a telephone franchise for this island from the legislature, but, said Pritchard, emphatically, this question had nothing whatever to do with the conference of himself and the other phone company managers, which was, as a matter of fact, merely one of their usual periodical conferences, held in order to discuss ways and means with which to effect a general improvement of the telephone service all around the island. Pritchard stated that it would take at least \$300,000 to duplicate the telephone equipment which the island now possessed, and he did not for a minute believe that any new company would go into such an expense.

E. E. Richards confirmed what Pritchard had said. He said that he knew nothing about the reported attempt to get a franchise, nor did this matter have the slightest connection with the conference, which had been called in order that the service might be improved, and, as a matter of fact, it had been decided to make several improvements, mainly in the outside districts, which would, when completed, vastly improve the long-distance service.

The telephone men also discussed the problem presented by the prevalence of the non-subscriber, a phenomenon which the telephone men dread like the farmers dread the cutworm. The non-subscriber, they say, takes at least one-third of the company's service, and, particularly where he uses the long-distance lines, he is taking a lot of time which really belongs to the subscribers. If the non-subscribers could be kept off the line a much better service could be given the subscribers. No solution has, however, as yet been found to stop this trouble, but the subscribers will be asked, for their own benefit, to assist the company in keeping out those persons who make a chronic use of other people's instruments.
